

Dear Parent or Guardian,

The Saturday Morning Physics program is planning to offer guided tours of the Cyclotron Institute facility as part of the Saturday Morning Physics series in 2019. The tours will be offered February 2. Although the Cyclotron Institute contains radiation-producing devices and radioactive materials, the facility is constructed to minimize the radiation exposure for permanent staff and visitors. The tour will only visit areas that have safe levels of radiation. In addition, the tour will be guided by trained staff, and visitors will not be allowed to deviate from the tour path.

By signing this form, I consent that my child can participate in this tour.
